ZebraFish India
RESEARCH • SOLUTIONS • IMPACT

Ethical Zebrafish Innovation
Powering Viksit Bharat.

Science for a Healthier Tomorrow

One Model. Infinite Possibilities.

An Integrated Zebrafish Research Ecosystem — From Infrastructure to Discovery.

Zebrafish India provides an integrated portfolio of systems, products and services for zebrafish research, helping institutions establish, operate and expand their research capabilities.

From zebrafish housing and water-management systems to breeding, nutrition, live zebrafish, imaging, neuroscience, genetics and research services, our solutions address the complete zebrafish research workflow.

ZEB HOUSING
Research-grade housing & water-management systems

RAVI R&D CENTRE
Research, development & experiential capabilities

NUTRIZEB
Science-backed nutrition across life stages

LIVE ZEB
Research-grade zebrafish & specialised strains

NEUROZEB
Behavioural & neuroscience research solutions

ZEB BREEDING
Breeding, hatching & rearing solutions

ZEB SCOPE
Imaging solutions for zebrafish research

ZEB GENE
Genetics, microinjection & research consumables

ZEB C&T
Careers, training & scientific capacity building

OUR PROMISE

We don't just supply zebrafish products.
We help institutions build the ecosystem required for zebrafish research.

20+
Facilities Established Across India

6+ Years
of Expertise

R&D Driven
Products developed and tested in-house

Indigenous Engineering
Designed and manufactured in India

End-to-End Support
From planning and installation to training and after-sales

Partnering Research. Enabling Discovery.

Zeb Housing Systems

Reliable Infrastructure for Research Excellence

Zebrafish India offers indigenously designed, state-of-the-art zebrafish housing systems tailored for research excellence. Our systems ensure optimal water quality, reliable performance and ease of use, supporting consistent fish welfare and reproducible research outcomes.

Portable Systems

Compact. Mobile. Flexible.

- Ideal for startups and smaller labs
- Space-efficient and easy to relocate
- Quick deployment
- Complete recirculating system
- All essential features for reliable husbandry

3 TIER 15 TANK (PORTABLE)

Capacity: 200 – 300 fish

Standalone Systems

Higher Capacity. Greater Scalability.

- Designed for dedicated research facilities
- Higher tank capacity options
- Robust and modular design
- Suitable for long-term and large-scale studies
- Customisation available as per requirements

5 TIER 54 TANKS (STANDALONE)

Capacity: ~1,250 fish

Standard Features

SS304 Structure	Medical Grade Polycarbonate Tanks	pH, EC & Temperature Sensors	Automated Controller (with/without sensors)	Water Recirculation & Filtration	UV Sterilisation & Oxygenation	Controlled Photoperiod	Optional Dosing Systems (pH & Salts)

Applications

Academic Research	Drug Discovery & Toxicology	Genetics & Transgenics	Neuroscience & Behaviour	Disease Modelling	Developmental Biology

Custom Solutions

Tank configurations, system size and additional features can be customised to meet your specific research needs.

For detailed specifications, customisation and optional items ask for our Zeb Housing Systems Catalogue.

Enabling Research. Empowering Discovery.

Science for a Healthier Tomorrow

Portable Zeb Housing Systems

Compact. Mobile. Flexible.

Research-grade zebrafish housing systems designed for modern laboratories. Easy to install, easy to relocate and ideal for startups, academic labs and smaller facilities.

- Space-efficient and mobile
- Quick deployment
- Complete recirculating system
- All essential features for reliable husbandry

Big Science Fits Anywhere

Portable 3 Tier System

15 Tanks | 300 Fish Capacity

- 15 Tanks (3 Tier)
- 300 Fish Holding Capacity
- Compact footprint
- Mobile & easy to relocate

₹ 6.75 Lakhs (Excluding GST)

Portable 4 Tier System

20 Tanks | 400 Fish Capacity

- 20 Tanks (4 Tier)
- 400 Fish Holding Capacity
- Compact footprint
- Mobile & easy to relocate

₹ 8.00 Lakhs (Excluding GST)

Tank Options

3 Ltr

10 Ltr

Custom Tank Options Available

Tank configurations can be customised to meet your research needs.

Ideal For

- Academic Institutions
- Startups & Research Labs
- Teaching & Training Facilities

Enabling Research. Empowering Discovery.

Tomorrow

Standalone Systems

Reliable. Scalable. Research-Ready.

- Automated recirculating system
- Stable water quality
- Scalable configurations
- Designed for long-term research

Big Science Fits Anywhere

3 Tier 30 Tank System

- 3 Ltr x 24 Tanks + 10 Ltr x 6 Tanks
- 800 – 900 Fish Holding Capacity
- Compact footprint
- Fully automated recirculating system

₹ 11.50 Lakhs
(Excluding GST)

4 Tier 42 Tank System

- 3 Ltr x 36 Tanks + 10 Ltr x 6 Tanks
- 1,000 – 1,100 Fish Holding Capacity
- Optimised footprint
- Fully automated recirculating system

₹ 12.75 Lakhs
(Excluding GST)

5 Tier 54 Tank System

- 3 Ltr x 48 Tanks + 10 Ltr x 6 Tanks
- 1,400 Fish Holding Capacity
- High capacity in a compact design
- Fully automated recirculating system

₹ 15.50 Lakhs
(Excluding GST)

5 Tier Double Side / XL / L-Shaped 108 Tank System

- 3 Ltr x 96 Tanks + 10 Ltr x 12 Tanks
- 2,800 – 3,000 Fish Holding Capacity
- Double side / XL / L-shaped configuration
- Ideal for large scale research facilities

₹ 30.00 Lakhs
(Excluding GST)

Standard Tank Options

3 Ltr

10 Ltr

Ideal For

- Academic Institutions
- Research Laboratories

Recirculating Aquaculture System (RAS)

Reliable Water Management for Healthy Zebrafish

Our integrated RAS continuously treats, filters and recirculates water to maintain optimal water quality, ensuring a stable, healthy and reproducible environment for zebrafish research.

Big Science Fits Anywhere

Water Distribution
Treated water is supplied to each tank through a precision manifold.

Monitoring & Control
Touchscreen control for system monitoring and automation.

Zebrafish Tanks
Research-grade tanks designed for optimum fish health and easy maintenance.

Water Collection
Drain from each tank collects water for treatment and recirculation.

Recirculation Pump
High-efficiency pump ensures continuous water flow.

Filtration Unit
Mechanical and biological filtration to remove solid waste and dissolved ammonia.

Chiller / Dosing (Optional Items)
Maintains desired water temperature and/or allows dosing for research applications.

Sump Tank
Integrated sump for treated water storage and recirculation.

Plumbing & Valves
Durable, corrosion-resistant piping with easy access valves for maintenance.

Key Components

Air Pump
Provides aeration for optimal dissolved oxygen levels.

Sensor
Monitors key water parameters for stable conditions.

Silent Motor
Energy-efficient and low-noise operation.

UV Barrel + Ballast
Disinfects water and helps maintain a pathogen-free system.

Ideal For

- Academic Institutions
- Research Laboratories
- Teaching & Training Facilities
- Scalable Research Infrastructure

Enabling Research. Empowering Discovery.

Recirculating Process in Our RAS

A closed-loop water management system that ensures clean, stable and healthy water for zebrafish research.

Big Science Fits Anywhere

Control & Monitoring (CNS)

Acts, measures, alarms and controls key functions such as pH + Temp + Conductivity* & heats water and maintains water parameters.

Zebrafish Housing System

Treated water is supplied to each tank and continuously recirculated.

Zebrafish Tank

Research-grade tanks designed for fish welfare, easy maintenance and reliable operation.

Mechanical Filtration

Pre-filter pad removes larger solid waste.

Sensor

Monitors key water parameters.

Water Heater

Maintains desired water temperature for research conditions.

Filter / Sump Tank

Integrated sump with multiple chambers for filtration, treatment and water conditioning.

Biological Filtration

Anion + Infrared Filter Media supports biological filtration and removes ammonia.

Treated Water Return

Clean and safe water is returned to the tanks for continuous use.

UV Barrel + Ballast

Disinfects water and helps maintain a pathogen-free system.

Silent Motor

Circulates water through the system efficiently and quietly.

Key Benefits

Stable Water Quality
Maintains optimal water parameters

Continuous Recirculation
Efficient reuse and treatment of water

Integrated Filtration
Mechanical, biological and UV treatment

Supports Better Research
Healthy fish for reliable results

Ideal For

- Academic Institutions
- Research Laboratories
- Teaching & Training Facilities
- Scalable Research Infrastructure

Enabling Research. Empowering Discovery.

ZebMonitor™

Intelligent Control for Zebrafish Housing

Big Science Fits Anywhere

Acts, measures, alarms and controls the key functions to maintain optimal water quality and system health, ensuring a stable and reproducible environment for zebrafish research.

Monitor
Real-time measurement of critical parameters

Control
Automated operation of equipment

Alert
Audio/visual alarms for out-of-range values

Data at a Glance
Simple, intuitive interface

User Interface

Navigation Tabs
Easy access to individual parameters such as pH, Temperature, Conductivity etc. for monitoring and settings.

pH Dial
Displays real-time pH value.

Dissolved Oxygen Dial (Optional Item)
Displays real-time DO value.

Prompt Row
Displays messages for any alarms or action requested.

Conductivity Dial
Displays real-time temperature value.

Ammonia
Displays real-time Ammonia value.

TDS
Displays real-time TDS value.

Salinity
Displays real-time Salinity value.

UV Status
Displays UV status and running hours.

Icon Bar
Shows status of various equipment in a single line.

Icon Bar Functions

Unlock	Dark Mode	Air P	Flow	LED	WR	Water	Pump	Heater	D pH	D Cond
Screen Lock / Unlock Tab	Dark Mode Option	Air Pump ON / OFF Icon	Flow Sensor (For Large Systems)	LED ON / OFF Status	Water Refresh / Water Change Option	Water Level Status	Pump ON / OFF (Large Systems)	Heater Status ON / OFF	Dosing Pump pH Status	Dosing Pump Conductivity Status

Key Benefits

Centralized Control
All key parameters on a single screen

Real-time Monitoring
Helps maintain stable water quality

Customizable Alarms
Audio/visual alerts for out-of-range values

User Friendly
Intuitive interface for easy operation

Ideal For

ZEB HOUSING
ZEBRAFISH HOUSING

Self Cleaning Tanks

Continuous Cleaning for Healthier Zebrafish

Self cleaning tanks are designed to continuously remove debris and uneaten food, keeping the tank clean, maintaining better water quality and reducing maintenance effort for healthy zebrafish.

Big Science Fits Anywhere

- Continuous debris removal
- Cleaner water and healthier fish
- Reduces manual cleaning
- Reliable and easy to operate

How It Works

The flow of water pushes excreta and uneaten food towards the back of the tank. The debris goes upwards and exits through the outlet.

Larval Baffles

Larval baffles allow raising larvae, they come in 500 micron to 750 micron baffle. Larval baffles are used to raise fish to adulthood.

NUTRIZEB

Science Backed Nutrition for Healthier Zebrafish

A complete range of scientifically formulated feeds to meet the nutritional needs of zebrafish across all life stages, supporting growth, fertility and research outcomes.

Zebrafish Feed
For Growth & Maintenance

Balanced nutrition for every life stage.

Adult Feed
Complete nutrition for healthy, reproductively active zebrafish.

Semi-Adult Feed
Supports early maturation and optimal growth.

Juvenile Feed
Highly digestible feed for fast and healthy growth.

Adult | Semi-Adult | Juvenile

Larval Feed Combo
For Early Development

Optimized nutrition for strong and healthy larvae.

Dry Larval Feed
Micro-particulate feed for early larval stages.

Liquid Larval Feed
Nutrient-rich liquid feed for enhanced survival and growth.

Supports higher survival, better growth and healthier development.

Live Feed
For Natural Nutrition

Live feed for superior growth and vitality.

Live Artemia
Highly nutritious live feed ideal for larvae and early life stages.

Rich in natural nutrients to enhance growth, colour and overall health.

Why Choose NUTRIZEB?

- **Optimized Growth** — Supports healthy development at all life stages
- **Improved Reproduction** — Balanced nutrition for better fertility and egg quality
- **Maintains Water Clarity** — High digestibility and low waste
- **Natural Ingredients** — Scientifically designed formulations
- **Trusted for Research** — Developed and tested in our own laboratory

Ideal For

Research Laboratories | Academic Institutions | Breeding & Maintenance | Teaching & Training Facilities

NEUROZEB

Zebrafish Neuroscience Research Solutions

A range of novel behavioural testing tanks designed for zebrafish neuroscience research to study learning, memory, anxiety, social behaviour and cognitive functions.

Validated Paradigms
Based on well-established behavioural models

Modular & Customizable
Designed to fit your research needs

Video Tracking Compatible
Works with standard tracking software

Reliable & Reproducible
Consistent design for robust data

Wide Range of Applications
Ideal for academic and pharma research

Novel Tank
Assess anxiety and exploration

Exploratory behaviour | Anxiety assessment
Vertical swimming activity

Y-Maze
Assess learning and memory

Working memory | Spatial learning
Conditioned response

Plus Maze
Evaluate anxiety-like behaviour

Anxiety assessment | Risk-taking
Exploration behaviour

Social Preference Arena
Study social interaction and preference

Social behaviour | Shoaling
Social preference

Radial Maze
Study spatial learning and memory

Reference memory | Working memory
Cognitive flexibility

Light Dark Chamber
Evaluate reward-based learning and decision making

Conditioned place preference
Reward learning | Motivation

ZEB BREEDING

Essential Tools for Successful Breeding

Reliable and easy-to-use products to support spawning, egg collection, and larval rearing, enabling consistent and high-quality zebrafish breeding.

Practical Designs
Simple, robust and easy to use

Proven Performance
Supports consistent breeding results

Research Ready
Ideal for academic and pharma research

Complete Breeding Workflow
From spawning to larval rearing

Breeding Chamber

For high yield breeding

- Designed for mass spawning and egg collection
- Separate spawning and collection compartments
- Robust, durable and easy to clean
- Ideal for large scale breeding programs

Artemia Hatchery – Small

For live food culture

- Compact and efficient design
- Continuous gentle water flow for high hatch rate
- Easy to operate and clean
- Ideal for small scale Artemia culture in the laboratory

Breeding Slider for 10 L Tank

Optimize breeding in standard tanks

- Fits standard 10 litre tanks
- Provides safe and efficient spawning surface
- Eggs fall through the slots, keeping them protected
- Easy to handle, clean and reuse

Key Benefits

Improved Breeding Success
Designed for natural spawning behaviour

Time Efficient
Simple and easy to use

Cost Effective
Durable and reusable

Supports Research
From basic research to drug discovery and toxicity studies

Ideal For

- Research Laboratories
- Academic Institutions
- Pharma & Biotech
- Government Research Institutes

ZebBreeding™ Artemia Hatchery

Hatch Live Feed for Brighter Tomorrows

Small Organisms Big Impact

A reliable and easy to use solution to hatch high quality Artemia nauplii – a key component in live feed for the right development of zebrafish.

Artemia Hatchery (10 – 15 Ltr Capacity)

Available in powder coated and stainless steel stands

High Hatching Efficiency
Ensures consistent supply of healthy nauplii.

Simple to Operate
User friendly design for everyday use.

Durable & Reliable
Made from high quality, chemical resistant materials.

Compact & Space Saving
Ideal for research labs and small facilities.

Supports Sustainable Rearing
Enables continuous availability of live feed.

ZEB BREEDING
ZEBRAFISH BREEDING

"Artemia – A Key Component in Live Feed for the Right Development of Zebrafish"

Freshly hatched Artemia nauplii provide essential nutrition for healthy growth, better survival and optimal development of zebrafish larvae.

FROM CYSTS TO HEALTHY LARVAE

Artemia Cysts

Hatching in Progress (18–24 hours)

Artemia Nauplii (Ready as Live Feed)

ZEBREEDING
MASS BREEDING CHAMBER

Efficient | Simple | Reliable
For large-scale collection of zebrafish embryos

Zebreeding Mass Breeding Chamber (50 Ltr) enables spawning of 15–30 adult zebrafish, providing a reliable and efficient solution when large numbers of embryos are required for research and toxicology studies.

50 Ltr Capacity

Bio mimicry of shallow space with artificial plants.

Zebrafish getting ample space to play and breed.

Embryo collection chamber for easy collection

Stainless Steel Mesh perforate to let embryos escape down in embryo holding chamber

Outer Chamber Holds Fishes Tank

Outer Tank

Stainless Steel **316** mesh structure gives zebrafish breeding playground

Embryo holding chamber valve to drain embryos and collect it.

- Spawns 15–30 fishes
- High yield of embryos
- Durable and easy to use
- Supports ethical research practices
- Ideal for toxicology, developmental and genetics studies

ZEB GENE

Precision Tools for Zebrafish Genetics

Reliable and easy-to-use microinjection equipment to support transgenesis, gene editing and functional genomics studies in zebrafish.

Reliable Performance
Designed for consistent and precise delivery

User Friendly
Simple to set up and operate

Research Grade
Suitable for academic and advanced research

Complete Solution
Essential tools for zebrafish genetics

Microinjection Device

Precise and reliable injection control

- Accurate and stable injection pressure
- Digital control for precision and reproducibility
- Foot pedal for easy operation
- Compatible with standard micromanipulators
- Ideal for zebrafish embryo microinjection

Microinjection Needle Holder

Fine control for precise delivery

- High precision needle holder
- Adjustable grip and easy handling
- Supports fine glass capillaries
- Suitable for single and multi-cell stage embryos
- Optimized for zebrafish microinjection

Air Compressor

Clean and stable air supply

- Provides clean, stable and continuous air supply
- Low noise operation
- Reliable and durable
- Suitable for laboratory use
- Complete with pressure regulator
- Essential for microinjection setup

Key Benefits

High Precision
Enables efficient gene delivery

Easy to Use
Simple setup and operation

Reliable Results
Consistent performance for research success

Supports Innovation
Tool for transgenesis, CRISPR and functional genomics studies

Science for a Healthier Tomorrow

Big Science Fits Anywhere

ZEB VIKSIT BHARAT

Zebrafish for a Stronger, Healthier India

Taking the zebrafish model to every pharmacy, biotech, fisheries and academic institute across India.

ZEB VIKSIT BHARAT — SOCIAL RESPONSIBILITY

Pharma & Biotech Institutes
Supporting drug discovery, toxicology and therapeutic research

Academic Institutes
Enabling research, teaching and hands-on training

Fisheries & Aquaculture Institutes
Advancing fish biology, health and sustainable aquaculture

Research Community
Building a nationwide network of zebrafish users

From Laboratories to a Stronger India

Our Vision

"Zebrafish research in every institute for a Viksit Bharat."

- Accessible Research Models
- Capacity Building
- Collaborative Innovation
- Healthier India Through Science

SMALL FISH. BIG POSSIBILITIES.
TOWARDS A VIKSIT BHARAT.

Together for a Healthier Tomorrow.

ZebraFish India™

Subject: Registration of Establishment with CCSEA / Constitution of Institutional Animals Ethics Committee (IAEC) - regarding.

Sir,

This is with reference to your application on the above mentioned subject. The animal house facility of your establishment has been registered with CCSEA for the purpose of 'Research for Education purpose, Research for Commercial purpose & Breeding for the purpose of trade on Small animals (Zebra fish). Further, the maximum housing capacity of animal house facility has been approved for housing of 1500 Zebra Fish and you are required to take prior approval from CCSEA in case of housing more number of animals.

2. The Registration number of the animal house facility of your establishment is 2393/PO/ReRcBt/S/2026/CCSEA and the registration is valid up to five years from the date of issue of this letter. Henceforth, the above registration number may be quoted in all your future correspondence with this office.

Approved for	Species	Approved Capacity
• Research • Education • Commercial Research • Breeding for Trade	Zebrafish	1500 Zebra Fish

Science for a Healthier Tomorrow

OUR SERVICES

From Concept to Discovery.

Comprehensive solutions to support your zebrafish research with expertise, reliability and innovation.

Your Partner Across the Zebrafish Journey

Annual Maintenance Service (AMC)

Ensure optimum performance and long-term reliability of your zebrafish systems.

Comprehensive Maintenance Services (CMC)

Complete care for your facility with preventive, corrective and system health checks.

Testing Services

Water quality, system performance and biological testing for a healthy research environment.

Neuroscience Evaluation Services

Behavioral and functional neuroscience assays using advanced zebrafish platforms.

Microinjection Services

Expertise in embryo microinjection for gene function studies, transgenics and custom research models.

Training and Development

Hands-on and customized training in zebrafish husbandry, research techniques and facility management.

Facility Planning

End-to-end support in design, layout and commissioning of zebrafish research facilities.

Research Services

Collaborative research and customized experimental services in the domain of zebrafish.

OUR CORE TEAM

Expertise. Innovation. Impact.

People Drive Progress

A dedicated team driving innovation in zebrafish research through technology, quality and ethical practices.

Rajat Gupta

Founder / CEO

A passionate zebrafish enthusiast with extensive experience in manufacturing, business development and promoting zebrafish research in India. Leads the vision, strategy and growth of ZebraFish India.

- Strategic Direction
- Business Development
- Building Research Ecosystems

Omswaroop Gupta

Technical Head

An engineering graduate with expertise in computer science and electronics. Drives product design, system integration and technical innovation to develop advanced zebrafish research systems.

- Product Development
- System Integration
- Technical Support

Shalu Yadav

Client Relations & Lab Incharge

M.Sc. Biotechnology postgraduate with hands-on experience in zebrafish husbandry and research support. Manages client interactions, training and lab operations to ensure customer success.

- Client Support
- Zebrafish Husbandry
- Training & Knowledge Sharing

SUPPORT TEAM

Strengthening Operations. Enabling Growth.

Dr. H Gupta and Er. Eshira Gupta have been heading their respective departments of Technical, HR, Logistics and Admin. Our dedicated team members and expert panel members prefer working behind the scenes – each equally essential to our impact.

We have a team of 7 people plus support staff.
